NEED OF A BAR.

Seventeen Die of Consumption In February.

DEATH RECORD OF CITY OF HONOLULU

Statistics Point Necessity of Keeping out Tuberculous Settlers.

THAT the Board of Health's determination to bar from Hawaii those afflicted with tuberculosis who seek to come here from other lands, is founded upon a crying need for the stamping out of the germs of that dreadful disease in the Islands, is proven by the monthly death-rate.

During the month of February, seventeen persons died in Honolulu alone of consumption. Pneumonia, of which there was an epidemic, claimed barely more than half that number, nine deaths being laid to it, while inflammation of the bowels carried off nine also.

The total deaths for February were 97, a monthly rate of 2.31 per 1,000 of population, the population of Honolulu being set down at 39,306. Fifty-two Hawaiians died during the month, 11 Chinese, 6 Portuguese, 11 Japanese, 2 Britshers, 5 Americans, and 4 of other nationalities.

Of the 51 who passed away during February 29 were males and 32 women. Ten males and 10 females were under 1 year of age; 2 males and 7 females were between 1 and 5 years; 7 males and 1 female between 5 and 10 years; 10 males and 4 females between 10 and 20 years; 7 males and 2 females between 20 and 40 years; 8 males and 2 females between 40 and 50 years of age; 3 males and 1 female between 50 and 60 years of age; 5 males and 3 females between 60 and 70 years of age, and 7 males and 2 females over 70 years.

There were 32 marriages reported and 29 births. Referring to the above statistics, it will be remarked that while barely more than half as many females as males died between the ages of 1 and 20 years, the reverse was true for those over 20 years of age.

The following were the causes of death: Malarial fever 1, typhoid fever 2, diarrhoea 3, dysentery 4, syphilis acquired 1, septicemia 1, inanition 2, Bright's disease 1, childbirth 1, puerperal convulsions, peritonitis, 1, shock 1, cancer of womb 1, pulmonary tuberculosis 17, senile marasmus 3, old age 3, epilepsy 2, brain congestion 1, brain hemorrhage 1, convulsions 1, tetanus 1, fatty heart 1, bronchitis 3, pneumonia 9, pulmonary congestion 1, gastric ulcer 1, gastro-enteritis 4, inflammation of intestines 9, obstruction of intestines 1, enterocolitis 2, inflammation of liver 1, vesical calculus 1, chronic nephritis 2, Bright's disease 1, childbirth 1, puerperal convulsions, peritonitis, 1, shock 1.

WANTS CONGRESS TO EXTEND TIME

Of Registration of the Chinese Until January 31, Next Year.

(Special Correspondence.)

WASHINGTON, D. C., Feb. 14.—Commissioner of Labor Powderly has addressed to the Secretary of the Treasury, who has sent it to the House, a letter asking Congress to extend the time for the registration of the Chinese in the Hawaiian Islands until January 31, 1902.

The Commissioner sets forth in his letter that under the Organic Act the Chinese of Hawaii must be registered within one year after the act goes into effect. For reasons which seem proper to the authorities the listing of the Orientals in the Islands did not commence until February 1.

This leaves less than five months for the taking out of papers by all the laborers in the entire group. As this will work a hardship upon some of the laborers who cannot be reached in the usual course of business on the part of the Collector of Internal Revenue, the suggestion to allow the additional time, as was without doubt contemplated in the act as originally passed, is in the interest of those who are denials and who might suffer by reason of the delays in the inauguration of the work.

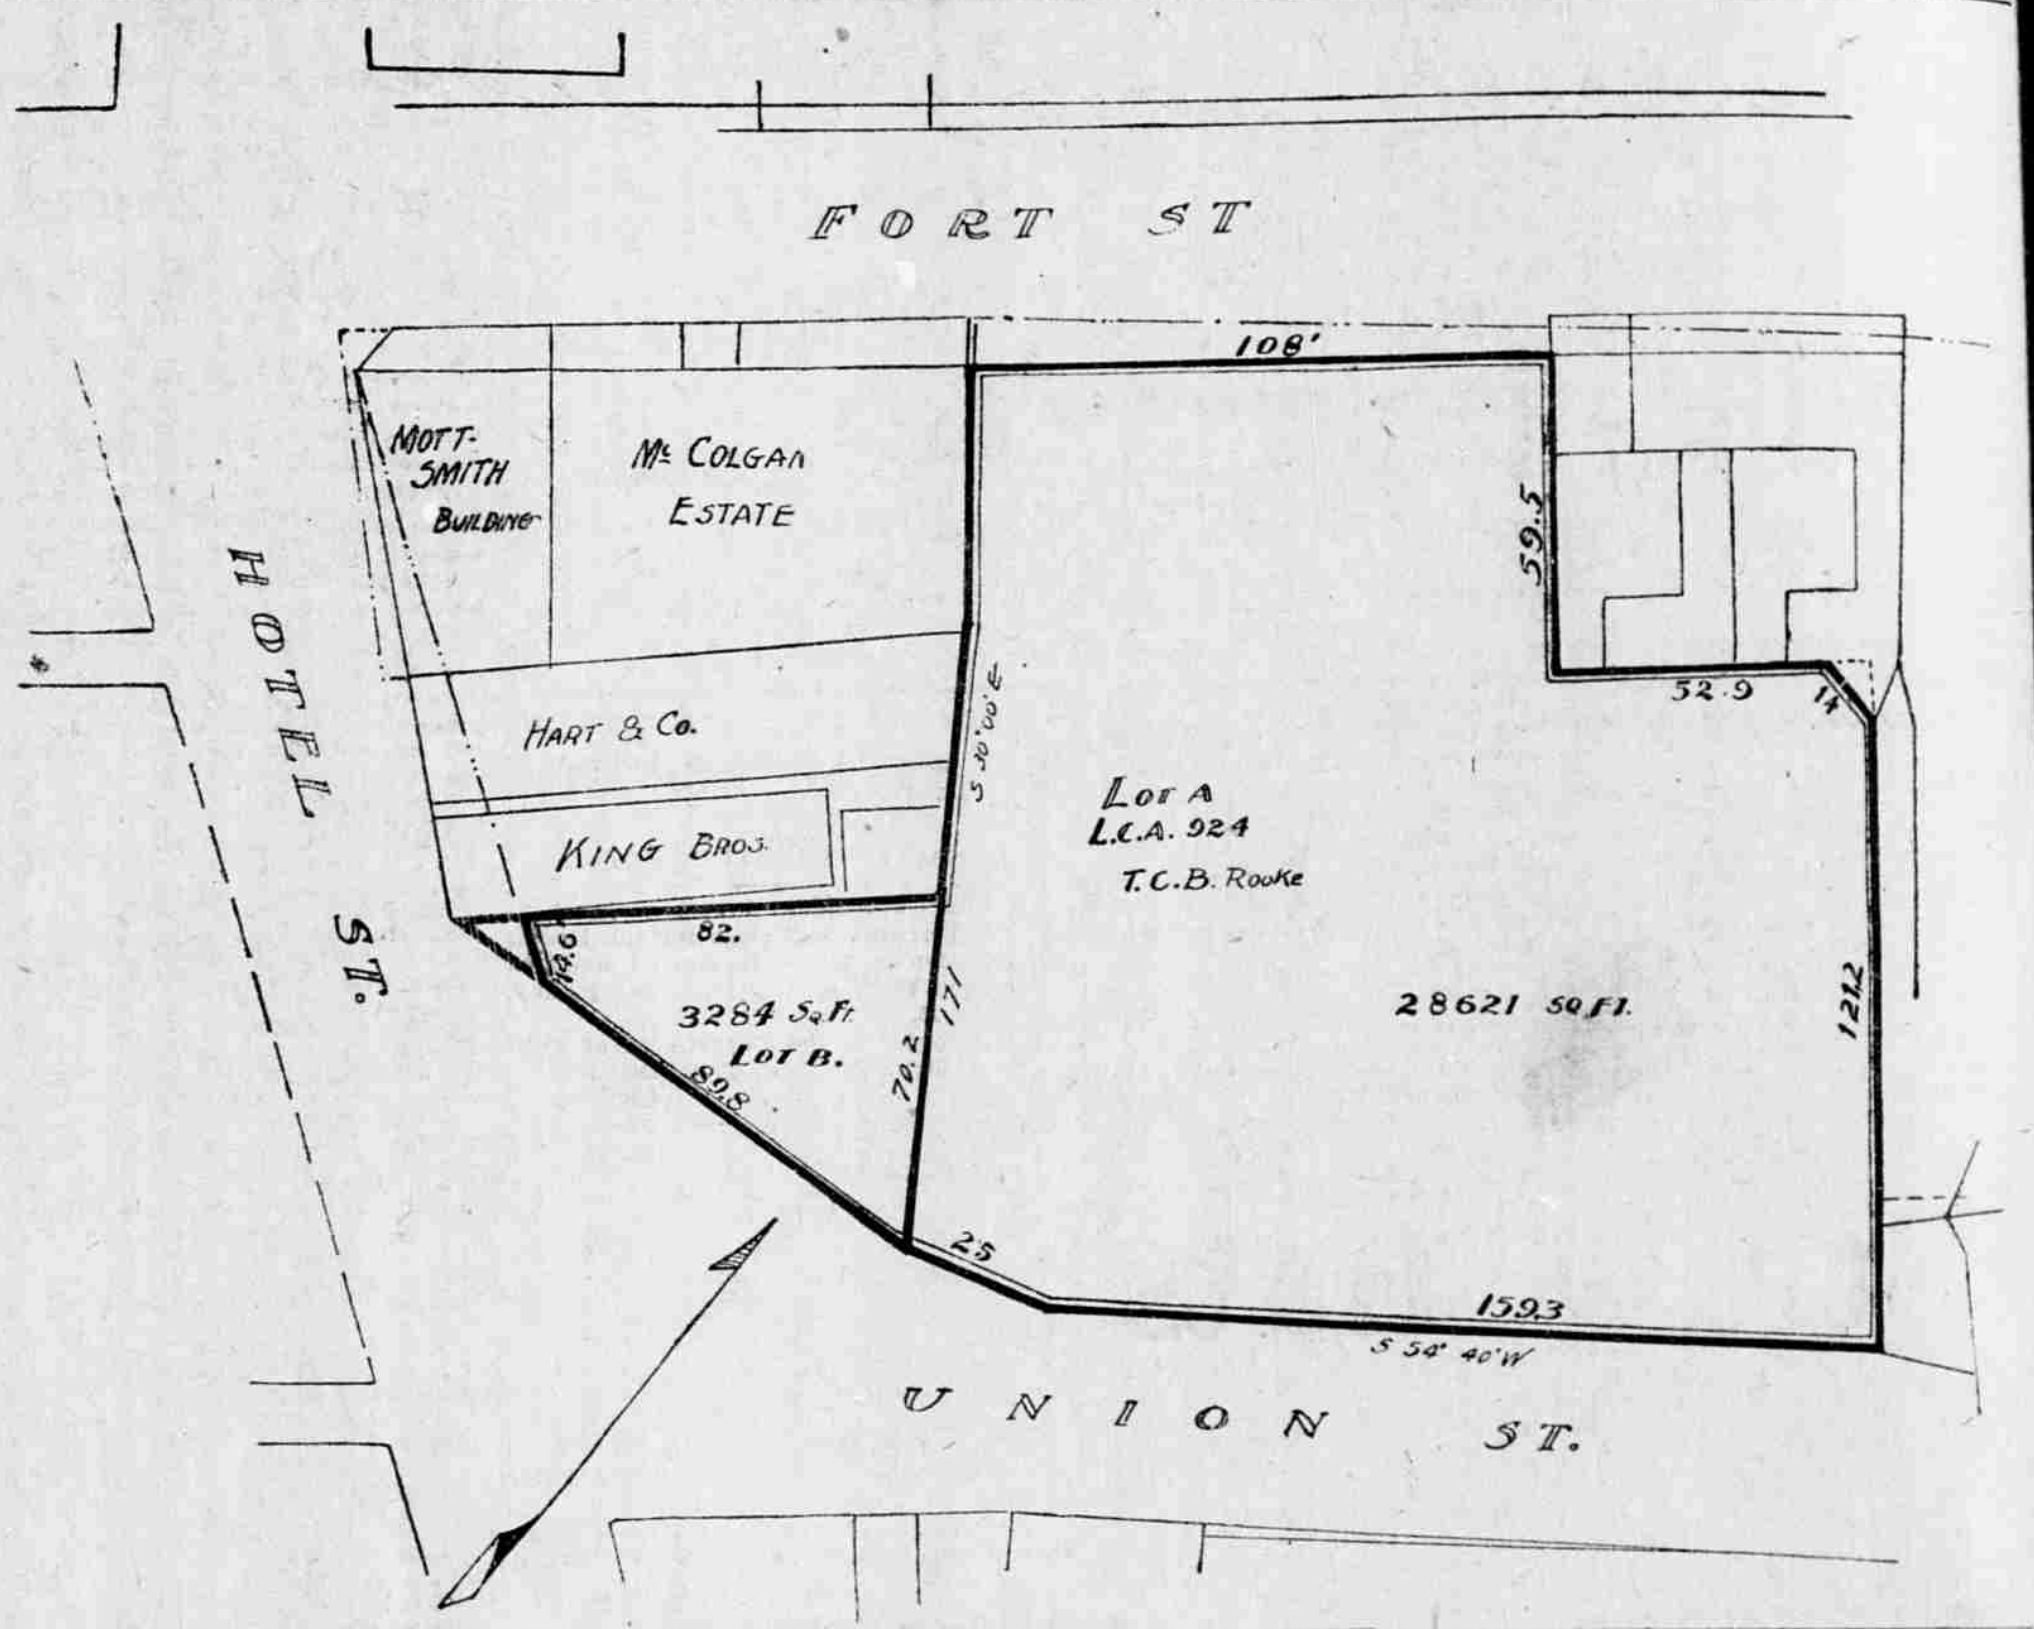

LATE WAR SCENES ON CANVAS.
Verestchagin, the celebrated Russian painter, will soon visit China for the purpose of painting the scenes of the recent fighting in and near Peking, and will then go to Manila to portray some of the battles in the Philippines.
